Please list:	_____		
Is your pet currently on any medications?	<input type="checkbox"/> No	<input type="checkbox"/> Do Not Know	<input type="checkbox"/> Yes:
Please list:	_____		

Blood Screening Consent: \$ 69.50 - \$ 99.25

For the enhanced protection of our exotic patients, we recommend blood screening of all exotic pets.

Blood is collected while the animal is under anesthesia to minimize stress.

Although we do perform a pre-surgical exam, many conditions, including disorders of the kidneys, liver and blood cannot be detected without blood lab screening.

We highly recommend blood screening on all exotics. The blood results will provide a baseline for future illnesses and provide early warning for timely treatment of the illnesses.

I DO I DO NOT authorize the Blood Screen

Pain Relief Consent: \$ 32.75 - \$44.75

For the comfort of our patients, we recommend a pain relief medication to go home. This medication allows the pet to rest and enhances the pet's recovery. Pain Relief is not available for all types of exotics. Your pet will also receive antibiotics and bene-bac to help promote healing.

I DO I DO NOT authorize pain relief for my pet

I authorize Cat Care of Fayette to examine and treat my pet, and by signing below declare that I have authority to approve such treatment. Signer agrees to take financial responsibility in the event the doctor suffers damages due to treatment that was fraudulently, or improperly, authorized by signer.

I understand that I am responsible for all charges incurred and must pay for those charges in full upon services being rendered. **(We do not accept checks as a form of payment)**
